# WHO ARE WE

Formed during the 2020 bull run, our core team brings a wealth of experience, including early success with a NEAR-BILLION-DOLLAR market cap project. Crucially, we are deeply invested in the well-being of our community. Our diverse team, ranging from blockchain pioneers and tech leaders to medical professionals, provides a strong foundation for building a project that truly serves its users and supporters. Our long-standing reputation for integrity reflects our commitment to our investors and the community we are building together. You can be confident in a legitimate, long-term organization where your best interests are a priority, and security against scams is paramount.

# WHAT DO WE DO

GET  
MONEY  
CLUB

\$GMC is a DeFi project focused on Real World Assets, driven by a fundamental goal: TO BE A KEY CONTRIBUTOR TO THE SEAMLESS MASS ADOPTION OF DECENTRALIZED FINANCE. Our token features a total supply of 1 billion, and an 8% transaction fee plays a crucial role in this vision by rewarding our community and strengthening the long-term value proposition of \$GMC. This fee structure allocates 7% to holders as rewards in \$SOL, encouraging broader participation in DeFi, and dedicating 1% to a burn mechanism, ensuring the token becomes increasingly scarce over time as adoption grows (Less supply, Higher token value).

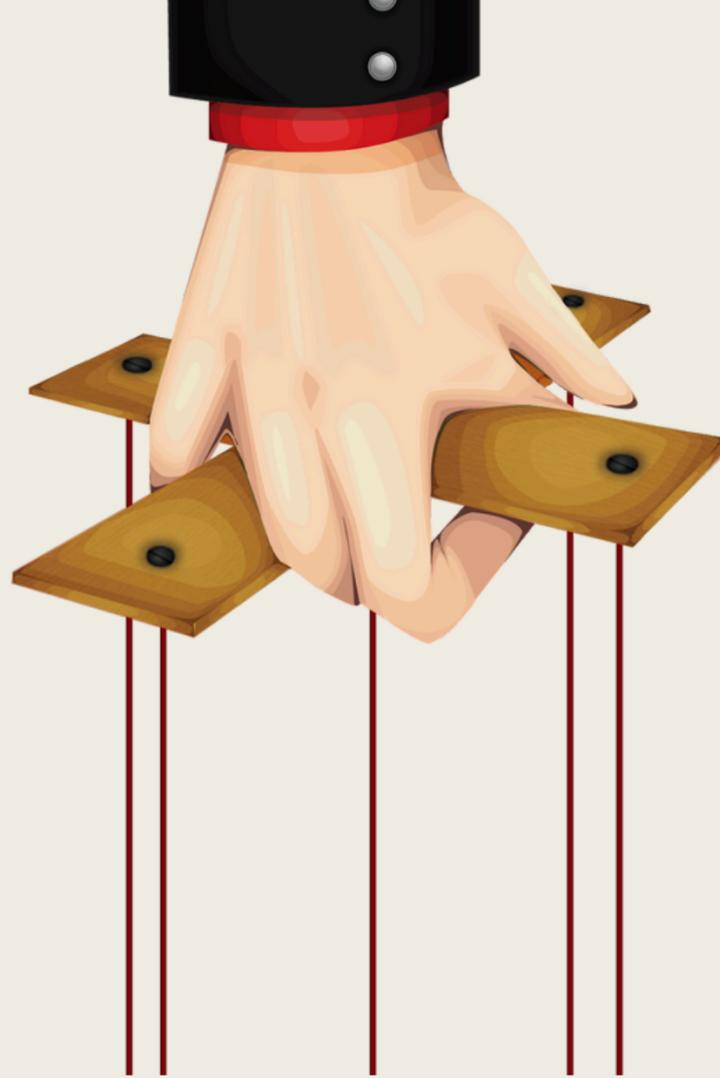

# WHY DO WE DO IT

As trailblazers in the DeFi revolution, our vision is to empower our entire community of supporters and investors with genuine financial freedom, achieved through integrity and innovation. We are deeply committed to building a secure and inclusive ecosystem where our holders and partners can confidently invest and thrive as valued members of our CLUB. By uniting global professionals through a shared strategy, we are not just creating a project; we are fostering a collaborative movement towards a more financially liberated future

# HOW WILL THIS HAPPEN

**IN ESSENCE, "HOW DO WE DO IT?" BOILS DOWN TO BUILDING BRIDGES, FOSTERING TRUST, DRIVING ADOPTION, FORGING MEANINGFUL PARTNERSHIPS, AND CULTIVATING A STABLE, REWARDING ECOSYSTEM. WE BELIEVE THIS COMPREHENSIVE APPROACH WILL NOT ONLY BENEFIT OUR NETWORK PARTICIPANTS BUT ALSO CONTRIBUTE SIGNIFICANTLY TO THE POSITIVE EVOLUTION OF THE WEB3 LANDSCAPE.**

## SEAMLESS INTEGRATION FOR BUSINESSES:

We actively reach out to established Web2 and emerging Web3 businesses, offering a clear and supported pathway to join the Get Money Club network. This involves providing the resources, guidance, and technical infrastructure necessary for a smooth transition and integration into the Web3 ecosystem.

## CULTIVATING CONFIDENCE AND ELIMINATING FUD:

We understand that navigating the complexities of Web3 can be daunting. To address this, we prioritize transparent communication, educational initiatives, and active engagement with our community and partners. By providing clear information, fostering open dialogue, and consistently delivering on our promises, we aim to dismantle Fear, Uncertainty, and Doubt (FUD) and build a foundation of trust.

## CHAMPIONING MASS ADOPTION OF DEFI:

We are deeply committed to making Decentralized Finance accessible and understandable to a wider audience. Our partnerships, the user-friendly design of our network, and our educational efforts are all geared towards lowering the barrier to entry into DeFi. By showcasing the tangible benefits and real-world applications of Web3 through our network, we aim to be significant contributors to its widespread adoption.

## STRATEGIC PARTNERSHIPS IN THE REAL-WORLD ASSET (RWA) SPACE:

We actively seek out and collaborate with companies that are at the forefront of tokenizing and integrating Real World Assets into the blockchain. These strategic alliances are crucial for demonstrating the practical utility and long-term value proposition of DeFi, bridging the gap between the digital and physical worlds and fostering tangible growth within our ecosystem.

## FOSTERING STABILITY THROUGH STRATEGIC REWARDS:

We've designed our reward system within \$GMC to actively discourage fear-mongering and the detrimental effects of sudden price drops ("chart dumping"). Our model ensures that all transaction activity contributes to revenue sharing among all holders. As a result, market fluctuations presenting price decreases can provide strategic entry points for investors seeking to accumulate a larger position. By incentivizing long-term holding and rewarding consistent participation, we aim to cultivate a stable and supportive environment for our investors and partners, prioritizing sustainable growth over short-term speculation.

# WHAT'S OUR TIMELINE?

## SHORT-TERM GOALS (Q2 - Q3 2025):

- **Solidify Foundation and Initial Traction:** Successfully establish a clear project vision, narrative, and strong team identity. Build a strong floor and community and implement initial website and branding.
- **Drive Early Engagement and Growth:** Achieve a significant Liquidity Pool (LP) growth during the LP Growth period in Q3. Secure initial key partnerships to expand reach and utility.
- **Introduce Engaging Elements:** Successfully launch the planned NFTs and execute simple yet effective marketing strategies, including trending efforts and community involvement through giveaways.
- **Design Initial Game & Educational Visuals:** Conceptualize a simple GMC game and create introductory DeFi/GMC educational content using graphic design and potential short animations.

# WHAT'S OUR TIMELINE?

## MID-TERM GOALS (Q4 2025):

- Enhance Visibility and Credibility: Secure listings on CoinMarketCap (CMC) and CoinGecko (CG) to increase visibility and credibility within the crypto space.
- Implement Scarcity Mechanism: Execute the Supply Burn Event to reduce the total token supply, potentially increasing the value proposition for holders.
- Expand Utility and Engagement: Successfully launch the Play-to-Earn game to introduce utility for the \$GMC token and further engage the community.
- Increase Accessibility: Achieve listings on centralized exchanges (CEXs) to broaden accessibility to a wider range of users.
- Develop Engaging Visuals for Integrations & Community: Create compelling 3D animations and graphics to showcase RWA partnerships and integrate interactive educational content and rewards within the game and community engagement efforts.

# WHAT'S OUR TIMELINE?

## LONG-TERM GOALS (BEYOND Q4 2025):

- Establish Significant Real-World Asset Integration: Forge multiple strategic partnerships in the Real-World Asset (RWA) space, demonstrating tangible utility and bridging the gap between traditional finance and DeFi.
- Drive Mass Adoption of DeFi: Through ongoing partnerships, user-friendly network development, and educational initiatives, become a recognized and significant contributor to the mainstream adoption of Decentralized Finance.
- Cultivate a Thriving and Stable Ecosystem: Foster a confident and actively participating community built on trust and transparency, minimizing FUD and promoting long-term holding through the reward system.
- Continuously Expand Utility and Innovation: Successfully implement the "Utility Phase" initiatives (to be announced), further enhancing the value and use cases of the \$GMC token and network.
- Develop Immersive GMC Game & Leading Web3 Platform: Continuously evolve the game with new features and establish the GMC platform as a visually stunning and user-friendly hub.
- Showcase RWA Integrations & Lead Gamified DeFi Education: Utilize advanced visuals to explain complex RWA integrations and become a recognized leader in engaging DeFi education through gamification and interactive design.
- Achieve Recognition as a Leading RWA DeFi Project: Establish \$GMC as a reputable and influential project within the Real-World Asset and Decentralized Finance sectors, known for its integrity, innovation, and strong community.
