

A tourism startup found in Maldives. Aiming to become a prominent player in the international tourism industry through our key 3 products and much more to come. We aim to bring a unique and real world use case cryptocurrency to the world by utilizing our products to add value and utility to the token. The aim is to become a prominent defi player and a hub in the coming years, thus launching and growing our own token will not only be profitable, but essential to be recognized and adopted by the mass within the defi industry.

WHAT SETS US APART?

- Paradise Wave is one unique framework that integrates virtual potential and real time business model.
- A unique adoption of Decentralized Financing DeFi by a tourism startup, in the serene location, that is Maldives.
- \$PRDS lifestyle token aims to bring leisure and luxury, not only in virtual domain, but in real life experience. Construction of our own Hotel in Maldives will spell the limitless boundary of the fusion of this two domains while our lifestyle mobile app will take us to even further.
- Experiencing traditional Maldivian culture and nature with the use of our Hotel facilities, equipped with vacationing packages tailor made for family and friends.
- Aimed to become a prominent crypto hub in the near future to satisfy and benefit our investors with more in the milestone of developments.
- The private island will mark our key milestone in becoming a force to be recon with and pave the way for the company to become incomparable to any of the existing ventures in the DeFi tourism sector and the real world tourism sector as well.

OUR PRODUCTS AND UTILITIES

Real World Hotel in Maldives

The Hotel is being constructed at a local inhabitant island called “Faresmaathoda” of the Maldives where a domestic airport is in operation, so you can take a flight directly to the island from the international airport in the Capital City; Male’. Mixing traditional Maldivian decor and modern furnishings, all 18 air-conditioned guestrooms enjoy views of the garden, beach or sea. All will be equipped with a flat-screen TV. The private bathrooms of each room will have a shower, slippers and dental kit. Ideal for budget vacationing with your partner, family or friends.

Estimated annual profit after tax is USD 800,000

Holders of our token \$PRDS and NFTs will earn various real world utilities from this property

HOTEL CONSTRUCTION PROGRESS

Full concrete structure has been completed and walls along with walls plastering works are also halfway completed.

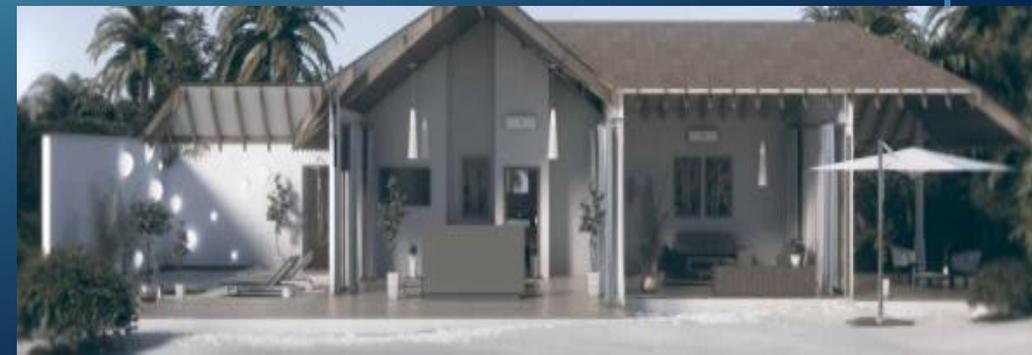

Pending: Completion of all walls and plastering, electrical, plumbing and all other finishing works

OUR PRODUCTS AND UTILITIES

Private Island

Paradise Wave will lease an island in Maldives where 20-30 rooms/villas, a pool, restaurant and a bar will be built. The island will feature pop up stores for merchandise and souvenirs, restaurant with local and foreign cuisines, spa wellness, pool, sunbed for tanning and relaxation while enjoying the forest ambiance.

Holders of our token \$PRDS will be able to earn various perks and benefits such as revenue share and other significant value as part of the token utilities from the island itself.

OUR PRODUCTS AND UTILITIES

Private Island Resort

To acquire a small sized (5 – 10 hectares) private island in Maldives after raising the necessary capital once phase I is completed. At the current market rates, the estimated acquisition cost will be USD 3 – 4 million dollars where we can use the property for 90 years.

OUR PRODUCTS AND UTILITIES

A lifestyle Mobile App

covering major aspects of your everyday life where a user can book a stay in any part of the world while shopping for the luxury and fashion goods the user has his/her eyes fixed on. All these features while being able to use the token \$PRDS as a currency within the app to make purchases without having to use their Debit/Credit card for the transaction. Users will also be able to use other major crypto currencies on the platform such as Bitcoin, Ethereum, BNB, USDt etc. Additional features such as buying crypto with fiat, storing crypto currencies with the wallet feature, send/receive crypto currencies, or invest in a pool of stable APR where users can earn \$PRDS as a reward.

- A **premium** subscription service will be offered within the app for **USD 6** and **USD 11** per month, where the subscribers will earn exclusive perks such as annual free bookings from our own properties, bonus.
- \$PRDS cash backs from their transactions within the app, extra discounts within the shop when shopping with \$PRDS and much more.
- Our target is to onboard 200,000 subscribers to the app within the first 3 years with the potential of generating USD 14 million per annum with our app alone.
